

1st Summer Course on Robotics for Wildfires

Certificate of Attendance

This is to certify that

Andres Felipe Rivas Bolivar

has successfully attended the **1st International Summer Course on Robotics for Wildfires,** held from **8–12 June 2026** in **Coimbra, Portugal**.

The course provided advanced multidisciplinary training in the application of robotics, autonomous systems, remote sensing, artificial intelligence, and decision support technologies for wildfire prevention, monitoring, suppression, and post-fire management. Participants engaged in lectures, demonstrations, and practical activities delivered by leading experts from academia and industry.

This certificate is awarded in recognition of the participant's attendance and commitment to advancing knowledge and innovation in robotics for wildfire management.
